540 Series cars were originally equipped with 5.20 x 13 bias belted tires.
560 Series cars were originally equipped with 5.60 x 13 bias belted tires.

WHEN USING MODERN TIRE SIZES

145 / 80 R 13 is approximately equivalent to 5.20 x 13 (bias or radial)
155 / 80 R 13 is approximately equivalent to 5.60 x 13 (bias or radial)

Radial tires provide greatly improved ride and handling.
Use of an improper size tire may result in damage to your car.
